

Annual Staff Training Summary for Reporting Year 11-12

Generally: All city yard personnel were given refresher training with the aid of a JPIA video. The video presented the effects of urban run-off and depicted common permit violations as well as proper BMP's. Additionally, all new employees are shown an NPDES training video and required to pass a test on storm water issues before they are permitted to work in the field.

Last Name	First Name	Department	Type of Training	Date of Training
CIOTTI	ANTHONY	Streets	Refresher	16-May-12
